

Muhammad Ahmad Wasim

Software Engineer

✉ ahmadwasimpk@gmail.com

📍 Lahore, Pakistan

PROFILE

I am a BS IT student at the University of Education Lahore with over 2 years of experience in software development. I specialize in Flutter app development and also have hands-on experience in full-stack development using the MERN stack (MongoDB, Express.js, React, Node.js). In addition, I have completed Python-based development work and have strong problem-solving skills across multiple technologies. I have built real-world projects including mobile applications, IoT systems, and service-based platforms. My focus is on developing scalable, efficient, and user-friendly applications while continuously improving my technical expertise

PROFESSIONAL EXPERIENCE

AI Engineer (Part-time / Trainee)

Worked as an AI Engineer in a Turing, gaining hands-on experience in artificial intelligence concepts, model understanding, and practical implementation of AI-based solutions.

Freelance Developer

Worked as a freelance developer on various client projects, delivering mobile and web applications. Gained experience in requirement gathering, project development, debugging, and client communication. Strengthened skills in Flutter, MERN stack, Python, and API integration through real-world projects.
